# Photo Safaris

by  
Diane Skinner

Come and discover some of my favourite photographic getaways. Treat yourself to a few days of fun, friends, photography and relaxation as I take you to the places where I capture images of breathtaking landscapes, majestic wildlife, awe-inspiring sunsets, meditative sunrises and more!

I am a professional photographer and have been shooting for over 30 years. I have been sharing my passion through presentations, lectures, photo tours and workshops throughout North America, Namibia and South Africa since 2002.

I invite you to join me on one of my photo safaris where you will discover spectacular new photo opportunities and make new friends. My photo safaris are designed to offer both photographic adventure as well as relaxation while you enjoy a 5-star weekend of activities. Dine and stay in luxury. Admire the views and beauty of nature. Capture stunning photographs!!

## Some highlights include...

- Exclusive access to prime locations
- Photographers of all levels are welcome
- Escape to a quiet oasis of natural beauty without traveling for days to get there
- Lodging is hand-picked for its charm, comfort and friendliness
- Every last detail of your photo safari is meticulously designed by me

These all inclusive photo safaris are offered in different locations throughout the province of Quebec.

One **featured safari** gives you the opportunity to capture fabulous images of a large variety of North American wildlife like the deer, coyotes, arctic and timber wolves, moose and black bear etc., in a natural setting, as well as dramatic landscapes.

These photo safaris of varied durations are taking place at different times of the year (Winter, Spring and Autumn).

Come and join me. My friends are waiting to meet you all!

**Are you itching to get away and shoot?**

**Are you ready to capture images you will be excited to share and display?**

**Is it time for something new?**

For more information, bookings or to be added to my mailing list, please contact me:
